TOWN OF ROTTERDAM BUILDING DEPARTMENT
FENCE PERMIT APPLICATION
518-355-7575 Ext 395

Permit Process:

Complete and Submit the following to the Building Department for review and approval:

- Completed Application
- Site Plan
- Insurance Certificates

NOTE: Plan review and approval may take up to 20 business days. This is dependent on number of projects under review. Incomplete applications and missing required information will delay the review process.

Do not mail or submit checks with permit application.

When the permit application is approved, the applicant will be contacted. The permit must be picked up, signed for and paid for at Town Hall by either the Property Owner, Applicant or Contractor. The Town only accepts payments by cash or check.

Permits must be posted on the property during construction and be visible from the street.

Items Needed to Obtain Permit:

1. Fence Permit Application to be filled out and the following supporting documents provided for Building Department Review:
 - One site plan

Site plan must have the following:

 - Show structure locations
 - Boundaries
 - Project location
2. Current copy of Liability and Worker's Compensation Insurance Certificates **we don't keep insurance on file , new permit =new copy's**
3. All work **must** conform with the Building Code of New York State/ And the local Zoning codes - **No Exceptions!**
4. **Any deviation from the approved plans must be authorized and approved by the Building Inspector.**

FEE SCHEDULE

- A. \$75.00

Fence Set-Back from Property Line Requirements:

- A. See attached Sheets
(NOTE: A Fence may be located up to property lines but may not encroach on the adjoining property. It is suggested to have a surveyor locate property lines before installing fences. It is the owner's responsibility to verify the location of the property lines.)

Definitions.

LOT – A portion or parcel of land considered as a unit and devoted to a certain use or occupied by a building or a group of buildings that are united by a common interest of use, and the customary accessories and open spaces belonging to the same. Such lot shall have frontage on an improved public street.

LOT, CORNER – A parcel of land at the junction of and fronting on two or more intersecting streets. A lot shall be deemed to front on each highway it abuts and be subject to the requirements of a front yard on each such highway, with the yards opposite thereto on corner lots subject to side yard requirements only.

LOT, INTERIOR – A lot other than a corner lot.

YARD, FRONT – An open unoccupied space on the same lot with a main building, extending the full width of the lot and situated between the street line and the front line of the building projected to the side lines of the lot. The depth of the “front yard” shall be measured between the front line of the building and the street line. Covered or uncovered porches, whether enclosed or unenclosed, shall be considered as part of the main building and shall not project into a required “front yard”.

YARD, REAR – An open, unoccupied space on the same lot with a main building, extending the full width of the lot and situated between the rear line of the lot and the rear line of the building projected to the side lines of the lot. The depth of the “rear yard” shall be measured between the rear line of the lot and the rear line of the building.

YARD, SIDE – An open, unoccupied space on the same lot with a main building, situated between the side line of the building and the adjacent side line of the lot and extending from the rear line of the front yard to the front line of the rear yard.

§ 270-143. Fences

A. Location and height.

- (1) Fences shall be permitted anywhere on a lot or parcel of land provided that the height thereof does not exceed four feet in a front yard or six feet in a side or rear yard, measured from ground level on the interior side of the fence to the uppermost part thereof, except in Light Industrial (I-1) and General Industrial (I-2) Zoning Districts where six-foot fences are permitted in any yard. The Planning Board has the authority to modify these requirements and/or limitations for any project undergoing review and/or approvals by the Planning Board.
- (2) On corner lots. No fence or other obstruction higher than two feet above an adjacent curb elevation shall be permitted on a corner lot within a triangular area encompassed by three imaginary lines, one of which runs along the edge of the pavement abutting the lot on one intersecting street and another of which runs along the edge of the pavement abutting the lot of the other intersecting street, and the third formed by a line drawn between two points, one on each side of the aforesaid lines located 30 feet from the intersection thereof.
- (3) Exceptions. The Zoning Board of Appeals may permit the construction of a fence in excess of the height limitations imposed by this subsection if it determines that there is a practical need therefor and that it will not be detrimental to the appearance of adjoining properties and/or the neighborhood. Application

to the Board of Appeals to exceed the height limitation shall be made in accordance with rules and regulations prescribed by said Board.

- (4) Front yard fences. All fences situated in front yards shall be constructed so that the fence is uniformly less than fifty-percent solid or opaque when viewed from a point normal to the plane created by the fence surface. If the lot is developed as a townhouse, a fence may only be erected in the front, rear, and side yard on the noncommon lot lines.
- B. Location of posts. Fence posts and other structural fence supports which, because of the construction of the fence, must be situated on one side thereof shall not be located on the side of the fence abutting adjacent properties.
- C. Aesthetics. The more aesthetically attractive side of the fence shall face abutting properties. The side which is more aesthetically attractive shall be the side which is more pleasing in appearance to a reasonable person because of finish, painting, woodwork or for whatever other reason.
- D. Barbed-wire and electrically charged fences.
 - (1) Permit required. No barbed-wire fences or electrically charged fences shall be permitted except by authorization and permit issued by the Board of Zoning Appeals. Such permit shall not be issued except for the following:
 - (a) Fences situated in business and industrial zoning districts may be topped with barbed wire, provided that the bottommost strand of barbed wire is at least five feet above ground level.
 - (b) Electrically charged fences may be permitted in agricultural zoning districts for the purpose of providing an enclosure of barrier to contain the roaming of animals.
 - (2) Standards. The Board shall issue permit upon written application in form prescribed by it if it determines that there is a practical need for such a fence and that the existence of the fence in the proposed location is not inconsistent with the character of the neighborhood and does not pose a threat of injury to persons lawfully in the vicinity of such fence.
- E. Fences on public property. No fence may be erected by others on property owned by the Town of Rotterdam or to which the Town has a right of access by easement or license.
- F. Exception for junkyards. The provisions of this section shall not apply to fences enclosing junkyards as required by Chapter 173 of the Town Code.
- G. Exception for solar farms and solar power plants. The provisions of this section shall not apply to fences enclosing solar farms and solar power plants.

Front Yard Area

Code of the Town of Rotterdam

§ 270-5. Definitions.

YARD, FRONT – An open, unoccupied space on the same lot with a main building, extending the full width of the lot and situated between the street line and the front line of the building projected to the side lines of the lot. The depth of the front yard shall be measured between the front line of the building and the street line. Covered or uncovered porches, whether enclosed or unenclosed, shall be considered as part of the main building and shall not project into a required front yard.
